

Bridge the gap between teaching and learning!

Create a personalized learning path for your multilingual learners and striving readers with standards-based progress monitoring and proficiency assessments that tell you exactly where each student needs support and point you to the right resources to provide individualized instruction!

Assess to Learn system helps teachers **ASSESS** ongoing learning progress, **DISCOVER** skills gaps, and then **PERSONALIZE** instruction using standards-based lessons and activities.

- **Assess and Monitor** student progress through standards-based progress monitoring and proficiency assessment to check learners' skills development and "sum" of learning.
- **Analyze and Discover** skills gaps easily with analytics tools that show student progress towards important learning standards. Monitor ongoing student performance at a glance through comprehensive dashboards.
- **Plan and Personalize** instruction by assigning standards-based lessons and activities. Easily search for student and teacher resources to customize instruction.
- **Teach or Reteach** skills and content for practice and reinforcement. Differentiate instruction by assigning activities to the whole class, small groups or individual students.
