

Read what California educators are saying about our programs.

"My favorite thing about VHL is the Supersite. It truly has earned its name because it contains every resource a teacher could need. If I need additional resources to differentiate, or if my students need more practice on activities, the Supersite is the one-stop shop for everything. Each learner has a chance to practice vocabulary and grammar by speaking, reading, writing, and listening."

Dave Campbell
Mountain View High School - Mountain View, CA

"What I have loved the most about Vista Higher Learning is the level of authenticity in all its programs—the combination of grammar and culture goes beyond my expectations. As someone who loves technology in my teaching, I have to admit that Vista Higher Learning has supplied me with all the online materials I have ever needed."

Adrian Correa
Head-Royce School - Oakland, CA

"What makes the VHL products unique is the fact that, through the use of Supersite, it turns the learning process into a student-based process where the teacher is the facilitator and the student does all the reflecting and thinking."

Luis Cely
Canyon High School - Spring Valley, CA

"Vista Higher Learning provides great support and a personal touch. They have sent representative to our district numerous times to train our teachers and to answer questions. They are so supportive and generous."

Sharon Gordon-Link
Del Oro High School - Loomis, CA

"Our school district adopted **Descubre** and **Temas** for our Spanish courses in 2012, and since then we have received amazing support from VHL. From onsite training and conferences to online support—it has been a great journey!"

Dayana Swank
Mountain View High School - Mountain View, CA

“One of the greatest difficulties teaching a language is being relevant. The vocabulary we teach and the cultural readings need to be relevant and useful in order to engage students and keep them interested. That's one of the main things that I love about VHL. We learn words that we can really use. We hear them used in TV news broadcasts, read them in magazines and books. They are very REAL. Not limited to, nor bound by, the walls of a classroom.”

Tina Gonzalez-Mohn
Terra Linda High School - San Rafael, CA

“I love the Supersite! Students complete activities and have instant feedback. They know immediately whether or not they understand the concept/vocabulary.”

Caroline Ridenour
Heritage Christian School - North Hills, CA

“I love **Senderos**! This is the first time I am teaching Spanish 1 at the high school level, and I have found lots of support materials that students enjoy and that I find very helpful in my teaching.”

Stacey Wenzel
Sequoia High School - Redwood, CA

“I wanted to let you know that 97% of our students scored a 3 or higher on the AP[®] Spanish exam this past May compared to 56% the year before. I attribute it **Temas**—you have a great product!”

Stacey Wenzel
Sequoia High School - Redwood, CA

“I love **Galeria**, and I don't say that about many textbooks. All of our Heritage speaker classes find it to be an engaging, comprehensive program of grammar, vocabulary and reading for native Spanish speakers. My students are learning so much from the readings and the grammar lessons.”

Jonda Farris De Gamez
Woodside High School - Woodside, CA

“The Supersite is very user friendly. One can assign work and see it already graded for the teacher. Assessments can be taken online or printed, according to the schools situation with technology. One can use the book alone or in conjunction with the technology resources. The materials are very well put together, and most importantly, the support from VHL one gets is exceptional.”

Jose Espinoza
Oakland High School - Oakland, CA
