

# LTI Advantage without Rostering

## Integration Overview

### About

LTI-Advantage (LTI-A) is Vista's deepest level of integration with most common LMS Platforms (BB, Canvas, Moodle, D2L / Brightspace). By using this common standard, Vista may link courses and accounts, provide seamless login once linked, and passback grades to the district or campus LMS. Vista's LTI-A integration is installed at over 200 institutions.

### Highlights

#### Automated course and account linking

- Manage your activities and courses via vhlcentral.

#### Tested and vetted:

- 200+ implementations nation wide

### Key Features

#### Account and course linking:

- Students and Teachers will require their own vhlcentral accounts
- Students and Teachers login via the LMS – and then link their vhlcentral accounts to the LMS Course.

#### Grade Passback and Deep Linking:

- Teachers may enable grade passback or gradebook synchronization.
- Grades may be passed back as aggregated scores based on Overall Score, Weekly, Lesson, Category.
- Teachers may also have specific activity scores based on selected categories
- **Deep context links may be created by teachers to specific activities, the student dashboard, or the homepage of vhlcentral.**

#### List of key platforms that support LTI-A:

- Canvas
- Blackboard
- Desire2Learn
- Moodle

### Implementation / How It Works

- Recommended for districts with over 150 students using Vista programs.
- Districts will contact their Modern Language Specialist to initiate the onboarding process.
- Vista Senior Technical Support Representatives will work with the district admin team to install the LTI-A tool.
- Training may be arranged via your Modern Language Specialist.
- Teachers create their courses on vhlcentral.
  - Teachers' link LMS courses to vhlcentral sections.
  - Students' login from their LMS, and link their vhlcentral accounts.
