Descubre ©2027
Available for Fall 2026 classes

Descubre is a comprehensive Spanish-language curriculum designed to prepare students for AP® Spanish in three years. Built for today's dynamic learning environment, Descubre immerses students in authentic Spanish language and culture through a rich blend of text, video, audio, and interactive online learning.

VISTA

NEW to this edition

Authentic, Motivating Content:
Even more authentic materials—including new readings and media—reflect real-world contexts and wider range of diverse characters and scenarios for deeper cultural immersion.

Puesta en escena Comprehensible Input Presentation:
Lesson openers with dedicated sections that uses cognates, structures, and images, making grammar and vocabulary more accessible from the start.

Expanded Teacher Support:

- Easily find and assign standards-aligned activities and resources by browsing or searching with skills-based criteria.
- Assignable IPAs help teachers monitor student progress, provide actionable feedback, and inform instruction.

Enhanced Digital Experience:

- Group chats for collaborative learning and peer interaction, plus solo video recording for independent speaking practice.
- Interactive hotspots and new vText (Interactive Student Edition) for improved navigation, interactivity, and accessibility.

Make vhlcentral your own

We value our teachers and the time they have in the classroom, that's why we make it easy to customize your online experience and create custom content tailored to your school or district curriculum.

vhlcentral helps you:

- Foster collaboration with *Share My Content*
- Differentiate instruction with *Individual Assigning*
- Design your own course with *Custom Course Creation*
